

**SPRINGFIELD****TWO provides workshops for CRRC employees**

Employees at CRRC MA Corp. enhanced their skills with help from the Training & Workforce Options collaborative between Holyoke Community College and Springfield Technical Community College. At CRRC MA, the rail car company in Springfield, workers successfully completed training workshops and received Lean Six Sigma Training Certification. TWO presented 51 "Lean Six Sigma White Belt" certificates to 51 CRRC workers and the higher level "Lean Six Sigma Yellow Belt" certificates to 26 workers. CRRC MA employees Peter Cswertek, left, and Dwyan Miller, who are STCC graduates, recently underwent training provided by TWO. The training was held at the CRRC MA factory, where subway cars for Boston's MBTA will be manufactured. White Belt training took place Oct. 3-12 and Yellow Belt training took place Dec. 5-14. TWO offers a variety of professional development training to employers. For a free consultation and to learn more, contact Tracye Whitfield, TWO's director of contract sales for manufacturing, IT and general business, at 413-552-2316 or tlwhitfield@hcc.edu.
