

*The biggest asset a company has is its data.
The data must not be compromised, stolen, or
changed. You can be a part of protecting this data
in one of the fastest growing fields*

Springfield Technical Community College can place you on a Fast Track to an IT Security Career

- **A STCC Computer & IT Security Certificate could make you eligible for positions such as Computer Security Specialist, Network Administrator, and Data Security Administrator.**
- This is a high-demand field, expected to continue growing for the next ten years.
- **Starting salaries may range up to \$43 per hour in these fields!**

**All statistics come from US Bureau of Labor Statistics via onetonline.org. This is not an offer of employment, this is an educational program.*

Two paths for eligibility!

Take CIT101 at STCC this summer

Or

Do you have basic Computer Information knowledge because you currently work in the field?—Take the Challenge Exam to earn the credits!
