V. Old Business

VI. New Business

VII. President’s Perspective – Dr. John B. Cook

A few notes before presentations:
- Stay tuned, close to having institutional emails for Trustees. This has been a goal of the Board of Higher Education.
- In regards to the Audit, unrestricted net amount is $10.2 million as of the conclusion of FY2020.
- A slight note of caution regarding STCCAC (Tech Park), they too are issued an unmodified opinion, clean audit. They are discreet from the College – financials are not co-mingled. The Tech Park lost one of their key tenants. We are hoping to invite to our next Board meeting the incoming Board Chair, Russel Denver, Paul Stelzer, President of Appleton - the company that manages the Tech Park, to talk about details of moving Building 20 to the Tech Park and about the impact of this project.
• Looking forward to tomorrow’s Ad Hoc Committee meeting. Trustees received materials in advance. Materials also available in BoardPaq. President Cook encouraged Ad Hoc Committee Members to take a close look into the 2007 report included in the packet, issued to the Ways and Means Committee.

• Note on priorities and important key areas:
  o Budget and enrollment management – complex and dynamic management as enrollment declines and state support is uncertain.
  o COVID management – Operations and instructional components are defined by COVID. Dr. Cook is having conversations/house calls with twelve groups throughout the college. Difficult times for employees yet they are doing incredible work.
  o Accreditation: The NECHIE is scheduled to perform our assessment in April. Accreditation allows us to access federal financial aid for our students, gives us the opportunity to examine ourselves and reflect on future plans.
  o B/20 Project: Imperative to vacate B/20, move to the Tech Park, to stabilize our School of Health.
  o Equity agenda – Ensuring that we are anti/racism institution. Trustee Jynai McDonald partnered with three administrators from our College.

  a. Accreditation (NECHE / Self-Study) – by Suzanne Smith, Dean of Institutional Research, and Christina Atwater, Professor of Business

Dr. Cook introduced the Co-Chairs of the STCC NECHE / Self-Study, Suzanne Smith, Dean of Institutional Research; and Christina Atwater, Professor of Business Administration.

The presentation included the following:
• Timeline: Where we stand and what’s to come.
• Overview of findings. This area is divided by challenges and strengths for each one of the nine standards.
• Most of the presentation focused on Standard 3 – Organization and Governance as it pertains to the Board of Trustees. Included was a set of questions developed by the committee for Trustees’ consideration for the future.
  o Additional information in regards to Committee Meeting
  o Channels of Communications (Standard 3.9) – examples of communications and what the plan is moving forward in particle with other bodies such as AUC.
  o Open Meeting Law Compliance (self-reflection)
  o Periodic Review of the CEO
  o Delegation of Authority and Risk Management, Standard 3.11
• Changes to Standard 3 are taking effect in 2021 and will help with projections for the Board. Changes are highlighted within each sub-standard:
  o 3.3 – The governing board is the legally constituted body **ultimately responsible for the institution’s quality and integrity.** Example: Recent events
3.7 – The Board is effective in helping the institution make **strategic decisions and confront unforeseen circumstances** – Example COVID-19

3.8 – The Board systematically develops, ensures, and enhances its own effectiveness through orientation, professional development, effective self-assessment, and regular evaluation including and external perspective. The Board addresses its goals for diversity within its membership. – Consider self-assessment tools provided by Mass Board of Higher Ed.

- Next steps and ways to communicate.
  Co-Chairs will send out a survey this week and are committed to attend the November 23 full Board meeting.
  Dr. Cook added, that on the January meeting, Trustees are expected to endorse the self-study. Co-Chairs will also email Trustees a copy of the Standard 3 self-study, a link to the NECHE standards where standards are outlined.

**b. Campus Repopulation / COVID-19 Outlook, by Dr. K.C. Senie, Assistant Vice President of Human Resources**

Dr. Cook introduced Dr. K.C. Senie, recently appointed Assistant Vice President of Human Resources. Dr. Senie presented an overview of Campus operational management during COVID. The presentation provided an overview of actions taken since the Governor’s Executive order outlining the reopening phases during COVID. A workgroup convened and meets at a regular basis to plan and discuss detailed protocols and guidelines included in our repopulation plan. STCC repopulation plan aligns with COVID-19 Higher Education control plan and it also follows Campus Safety Guidelines/Attestation. In addition the presentation included an overview of the campus repopulation expenses adding up to $174,249, which include costs of cleaning, COVID-19 Testing, PPE/Safety, and Screening. In response to the question, are we doing enough? Dr. Senie assures that the workgroup is taking proactive steps to stay ahead, as for instance, we are doing surveillance testing and this is something that not too many institutions are doing.

Upon the question, are we doing enough? Dr. Cook provided a few examples: Nursing staff are concerned about the stay at home order, they feel safe coming to campus and are pleased with the protocols we have in place such as thermal scanning. Most recently we received a visit from three Representatives and they were impressed with the protocols we have in place. It is important to educate our delegation of the cost involved in having these protocols in place. Also in mind and in anticipation of the winter we might have to invest on staffing the Pearl Street entrance for easy access.

Trustee Eric Hagopian asked if the State provides any funding to alleviate the cost. Dr. Cook informed that most recently, tied to the Representatives’ visit to campus, the State provided approximately $500k emergency relief aid to address COVID costs. The problem is that money lost from enrollment decline is more difficult to match.

Chair Marikate Murren commended the hard work done by STCC to keep the campus safe as much as possible.
