COVID-19 Campus Repopulating Work Group
June 26, 2020

Present: Denise Hurst, Darcey Kemp, Joseph DaSilva, Jonathan Miller, Kathryn Senie, Kerri Kane, Deb Avery, Mike Cassesse, Chris Scott and Theresa Przybylowicz.

Repopulation Handbook Review
Kerri Kane once again walked the group through the handbook updates. Takeaways were as follows –

• Make sure our plan includes everything on the state COVID-19 control plan template
• Staffing and Operations section needs more work
• KC & Kerri will work together to make sure we hit all the criteria
• Kerri – who will clean computers? It has always been IT but must be verified
• KC – Cabinet discussed opening computer lab for students by appointment only
• Verify what buildings are scheduled to open in the fall – 2, 17, 20, and 32. Is 27 included in this list?
• Can Graphic Arts be moved from B15 to another building for the fall? KC will ask Dr. de Berly.
• Tech Park proposal will become an addendum to our plan
• Does NPS have a plan? If so, it should be added as an addendum.
• Recommended that the workbook stay electronic only due to the necessary changes that will need to be made.
• Is temperature check necessary? Possibly continue through the pilot program only?
• Committee agreed that any program that may benefit our students should be our main concern. Other requests such as civil service testing, HISET testing, etc. should not be allowed at this time.
• Denise Hurst also noted that we do not want the public to know that we are allowing outside vendors on campus when we recently cut our own programs.
• Joe DaSilva proposed that we concentrate on our programs/students throughout the summer. No outside entities during this timeframe.
• Jonathan Miller suggested possibly tying temperature screening to phases 1 & 2 and reexamine in phase 3. Will continue through pilot which ends August 14.
• Committee in agreement that the civil service testing and HISET testing requests should be declined. Both are outside entities.

EMT/PTA/OTA
Added room which brings the total up to three rooms. Deb Avery noted that the main concern was the number of students per room. Adding a third room took care of this. EMT/PTA/OTA approved to begin.

WTCC (Radio Station)
Committee has approved their plan. Allow them to come back on campus after the holiday and when the wiring and attestation forms are complete.
