

**COVID-19 Campus Repopulating Work Group
Minutes**

October 23, 2020

Present: Darcey Kemp, Patrick Dawes, Quiana Campbell, Cliff Porter, Keith Paul, Theresa Przybylowicz, Michael Cassesse, Kerri Kane, Jenkin Gould, Barbara Washburn and Jonathan Miller

Discussion Points

- Michael C. noted that faculty members have been coming on campus without checking in. Barbara Washburn requested more details – names, etc.
- Jonathan Miller is trying to simplify the no-fly list. Using a google form which captures all the necessary information.
- Michael C. brought up concerns certain members of Facilities have. They would like to know what happens when there is a positive case. What is the process? Jonathan Miller noted that we are following CDC and MA guidelines. In the event of a positive student case, the faculty member creates a list of individuals who may have been in close contact with the individual. This information is handed over the City of Springfield Public Health office for contact tracing.
- Jonathan suggested that he meet separately with any member of Facilities who has questions and/or concerns.
- Barbara Washburn informed the committee that she has had two COVID test done on campus. Both times she had to reach out to AMR for results because they never got back to her. Michael C. also noted that he has taken two tests and not received any results.
