COVID-19 Campus Repopulating Work Group
Minutes
October 27, 2020

Present: KC Senie, Darcey Kemp, Patrick Dawes, Quiana Campbell, Cliff Porter, Keith Paul, Theresa Przybylowicz, Michael Cassesse, Kerri Kane, Jenkin Gould, Barbara Washburn, Mary Kaselouskas, Chris Scott, Lisa Fugiel, David Buonora and Jonathan Miller

Discussion Points

- **Check-in Update** – Due to Alberto’s absence this week, the STCC Squad is taking on more duties. Jenkin noted that they are handling it well. Can he and Alberto continue to pull back and allow the squad to handle more of the duties?

- **Landing Page** – Once content is approved, forward to Cliff for uploading.

- **MA Uptick** – KC asked that Facilities and Campus Police continue to encourage their staff to take advantage of the free on-campus testing. Barbara Washburn has begun sending out weekly emails to her faculty and staff encouraging them to get tested. Deb Avery will also continue to push her staff to get regularly tested.

- **GEER/CARES Act Funding** – GEER funding ends December, 2020. What do we need (COVID related) that can be purchased before the funding expires? The following items were discussed –
  - **Plexiglass** – Let Deb Avery know if Plexiglass is needed or will be needed in your areas.
  - **Microphones** - students cannot hear faculty while wearing masks/face shields – Chris Scott has already looked into this and will speak with Teresa offline.
  - **Scheduling software** – Barbara Washburn will speak with Cliff Porter offline.
  - **Floor mats** – will be needed at check-in areas during inclement weather.
  - **Check-in process software?** - Possibly use our RAM cards (swipe) as we enter the building as verification we are allowed on campus at that time. Process would be as follows – (1) Healthy Roster complete (2) temp taken (3) swipe card. Mike C noted that this would have to be brought up to both MCCC & AFSCME before instituted.

- The following meeting changes were discussed and approved –
  - Tuesday – Case Management discussion
  - Friday – Regular meeting

- Testing will be increased following the Thanksgiving break. Will be publicized before the holiday.

- Medical Assistant program would like to hold a drive by pinning for 15 students. Each student would be called to the front steps of B20 (individually) to have their photo taken. Will be done on a Saturday. Group requested more information from Chris but feels there should be no problem allowing this.
