

COVID-19 Campus Repopulating Work Group  
Minutes  
March 26, 2021

**Present:** Dr. Cook, KC Senie, Patrick Dawes, Theresa Przybylowicz, Jenkin Gould, Chris Scott, Jonathan Miller, Chief Rivera, Barbara Washburn, Darlene O'Brien, Lisa Fugiel, Doug Slavas, Chet DeGray, Andrea Nathanson, Darcey Kemp, Matt Gravel, Chelsea Contrada, Gena Lomelin, John Harmon, Jeremy Greenhouse, Deb Bellucci, Keith Paul, Dr. deBerly, David Buonora, Mary Kaselouskas and Mike Cassesse

### Discussion Points

- Dr. Cook began the meeting by addressing the group. Gave an update on what to expect for the fall semester. The summer sessions will not look different than the current outlook. Graduation will be virtual. Dr. Cook supports the idea of holding pinning ceremonies on campus. The repopulation group will have to look at each request individually and determine if it can be held on campus.
- Once employees are allowed back on campus who will get to continue to work remotely? This will be determined over the next months.
- STCC is not in a position to mandate vaccinations. Please continue to encourage employees to do so.
- New protocols for maintainers will be determined. They cannot continue to clean as they are now when additional buildings/classrooms are opened. Will work closely with maintainers/AFSCME to work this out.
- At this point Dr. Cook asked if there were any questions –
  - Darlene O'Brien – can testing (exams) be brought back on campus? Very difficult to monitor remotely. Dr. Cook suggested that this group consider bringing testing back.
  - Chelsea Contrada – will the public be allowed back on campus (Library)? Dr. Cook noted that the campus is closed until at least June. If social distancing changes, we can revisit this but we must be mindful of our staff/students foremost.
  - Patrick Dawes – Can we have students tour next month? Dr. Cook suggested waiting until June to see if the social distancing guidelines are changed.
  - Jeremy Greenhouse – what is the status of work-study students? Dr. Cook suggested the possibility of work-study students working remotely if possible.
  - Carolyn deLiefde – Farmer's market manager requesting to hold the market onsite in September & October this year. Dr. Cook – we cannot answer that until June (see if restrictions have lifted/changed).
- KC Senie suggested that the meeting go back to weekly which will be done starting next week.
- KC Senie noted that some of the logistics groups have already met. Each group should plan regular meetings and come up with action steps to complete. Chief Rivera gave an update on the Parking logistics subgroup which includes Deb Avery, Chief, KC Senie and Deputy Chief DeGray. This group will be able to plan better once they know how many students will be on

campus and which lots will need to be opened.

- KC SEnie noted that any decisions made by this group should be communicated to the campus.
- Chelsea Contrada (on behalf of Erica Eynouf) would like no access to the third floor of B19.
- Jonathan Miller informed the group that as of Monday the travel restrictions will be changed to travel advisory.
- Healthy Roster and paper forms will need to be changed based upon the update to the travel advisory.
