

COVID-19 Campus Repopulating Work Group  
Minutes  
August 17, 2021

**Present:** Kerri Kane, Chester DeGray, Keith Paul, Jonathan Miller, KC Senie, Deb Avery, Gladys Franco, Lara Sharp, Darcey Kemp, Andrea Nathanson, Deb Bellucci, Erica Eynouf, Theresa Przybylowicz and Chief Rivera

**Discussion Points**

- Nadim's will be open 9/7-12/17/21 in the Bldg. 2 Café. Hours of operation will be 10am to 1pm daily. A close eye will be kept on spacing of chairs and tables in the café area. If changes are needed, Facilities will do so.
- B19 Update (from Darcey Kemp) – Seeing 10-12 students per day on average. Will inform group of any events Student Affairs may have planned. Multicultural Affairs will hold their events virtually in the fall. Darcey will include information about the vaccine clinic in the next newsletter.
- Booster shot will be available at STCC for those who are eligible.
- Shipping/Receiving are back to five days per week as of Monday, August 23.
- Bookstore back to regular hours (8am-5pm) Monday, August 23.
- Facilities has received a sample of the surface wipes. Additional order will arrive on campus in the next few weeks.
- A meeting was held on August 17 to discuss signage needed on campus. Keith Paul will develop signs to be located at each entrance, café, lounges, outside elevators, etc.
- In the next week, Facilities will send out an updated communication regarding the status of projects on campus.
- Jonathan Miller will forward to Facilities, Keith Paul and KC additional signage requirements.
- Welcome Back Event will be held on September 1 between 12pm-2pm.
- A discussion ensued regarding the need to have a plan for what happens if someone (student or staff) has a positive case of COVID? Do we need to shut down the entire class or office? Important to have a plan in place before September. A smaller group called the Campus Response Team (Deans, Jonathan Miller, and Facilities) will convene to discuss and come up with a plan. The plan used to date calls for the classroom or area to be empty 24 hours before Facilities staff enters the room to clean.
- Lara Sharp voiced her concern regarding the timing of this updated plan. Certain changes may have a large impact on the STEM area.
