Health Requirement Checklist available here: stcc.edu/healthservices

Medical Laboratory Technician Program (CLLS.AS)

| Health records (e.g. forms, vaccination, lab/imaging reports, etc.) may be submitted as follows: |
| In Person .......... | Health & Wellness Center, Building 19, Room 177 |
| Online ............. | Dynamic Forms Dropbox Direct link: tinyurl.com/27ychwv2 |
| Fax ................. | (413) 755-6045 |
| Release Request ..... | tinyurl.com/y4y4ruuo |

Due within 10 days of acceptance
☐ CORI Acknowledgement Form – Bring valid identification to office or have form notarized and submit online. Form and instructions: tinyurl.com/stcc-cori. Required annually in order to register for classes.

Due prior to July 1st or upon acceptance (if after July 1st)
☐ Auth. to Release Info. to Fieldwork Sites Form - Complete the form at tinyurl.com/y34eglyt
☐ Technical Standards Acknowledgement Form - Complete the form at tinyurl.com/y6c9j36y
☐ Multiple Policies Acknowledgement Form - Complete the form at tinyurl.com/y5xc4yu4
☐ Physical Exam Attestation Clearance Form – click here to print. No form substitutions. Completed by a licensed clinician and exam dated within 1 year of program start. Schedule your subsequent exam for renewal.

☐ Tuberculosis Screening - Results dated within 6 months of course start and annually thereafter. Choose either…
  ➢ Option A: ☐ Blood test: Quantiferon-TB Gold Plus or T-SPOT; Only option for BCG-vaccinated
  ➢ Option B: TWO Tuberculin Skin Tests
    ☐ 1st PPD is planted and read 48-72 hours later AND
    ☐ 2nd PPD is planted 7-21 days after the 1st and read in 48-72 hours (to rule out a false negative);
    Only a single plant required for subsequent annual renewal.

  Screened positive? Submit the positive result along with a chest x-ray completed at the time of the positive result and complete Positive TB Screening Questionnaire.

Immunization/Immunity Records:
☐ Hepatitis B - 3-dose hepatitis B vaccine series (or 2-dose HEPLISAV-B™)
☐ Hepatitis B surface antiBODY (anti-HBs) titer blood test. Desired result is positive or ≥10 mIU/mL.
  Those with a documented pediatric series may benefit from receiving a challenge vaccine dose 6 weeks before the blood test due to declining antibody serology. See next page for more information.

☐ COVID-19 vaccine(s) – original series or updated single dose covering the COVID season of fieldwork. Subject to change per fieldwork site policies.
☐ Tetanus, Diphtheria and Pertussis (TDaP) – vaccine administered within the past 10 years
☐ Measles, Mumps, Rubella (MMR) - 2 dose vaccine series (or titer results showing immunity if no vaccine record)
☐ Varicella (chickenpox) - 2 dose vaccine series (or titer result showing immunity if no vaccine record)
☐ Meningitis – MenACWY (formerly MCV4) vaccine administered on/after 16th birthday OR Meningitis Waiver via tinyurl.com/y6svra7b

Health Requirement Checklist  
Medical Laboratory Technician Program (CLLS.AS)

(continued from the previous page)

**Additional Requirements:**

☐ **Influenza** - Second year students submit one vaccine dose before October 1st for fieldwork participation during the flu season (Oct 1-March 31). **Required documentation:** Name, date of birth, date administered, manufacturer, and clinical site where administered or clinician name.

☐ **Additional Background Checks and Drug Screening** - 60-90 days prior to fieldwork start, students will receive ordering instructions from compliance@stcc.edu. For more information, [Screening Policy for Fieldwork Placement](#).

☐ **N-95 Mask Fitting:** Students participating in lab and/or fieldwork may be required to complete annual respirator training, medical evaluation and fit testing. If required, instructions will come from your program.

For more information, contact the Health & Wellness Center at stcc.edu/healthservices.

---

### Hepatitis B and Healthcare Personnel

Occupational exposure to blood and body fluids or other potentially infectious material may put you at risk of acquiring hepatitis B virus, a serious disease. A pre-exposure management blood test to confirm immunity is required. A 'Documented Responder', anti-HBs ≥10 mIU/mL, requires no post-exposure testing or prophylaxis.

**Evidence of immunity can be problematic for those vaccinated early in life because serologic levels decline over time** (immunogenic remain). A way to help achieve the desired result on the **first** test is to receive a challenge/booster dose six weeks before having the anti-HBs drawn.

**Anti-HBs results:**

- Positive, Reactive or ≥10 mIU/mL indicates immunity. There is no date limit just submit the record.
- Negative or <10 mIU/mL requires further action:
  1. Submit the anti-HBs result along with subsequent vaccine documentation.
  2. You may need to submit a [Health Requirement Deadline Extension Request Form](#) by emailing compliance@stcc.edu. Request when a vaccination series is in process and/or while waiting for a booster dose to take effect beyond the deadline. Your dated plan for achieving evidence of immunity is required. **Is your plan to complete a full series (initial or repeat) or partial repeat series, or a single challenge/booster? Date of repeat anti-HBs is also required.** If completing a full series, the 2-dose HEPLISAV-B™ (Dynavax) followed by anti-HBs 8 weeks after final dose takes only 3 months to complete. The 3-dose series followed by anti-HBs 4 weeks after final dose takes 7 months.

**Students are encouraged to complete the immunity requirements when applying to the program.** Deadlines established by the Dean of the School of Health and Patient Simulation. Failure to meet the requirements may result in removal from the program. STCC will put forth a best effort to accommodate fieldwork placement of an unvaccinated student but this is without guarantee. A student who is unable to be placed will not be able to matriculate in their program of study.
