Supporting
students.
Transforming
lives.

STCC, the Commonwealth's only technical community college, continues the pioneering legacy of the Springfield Armory with comprehensive and technical education in manufacturing, STEM, healthcare, business, social services, and the liberal arts. STCC's highly regarded workforce, certificate, degree, and transfer programs are the most affordable in Springfield and provide unequalled opportunity for the vitality of Western Massachusetts. Founded in 1967, the college – a designated Hispanic Serving Institution – seeks to close achievement gaps among students who traditionally face societal barriers. STCC supports students as they transform their lives through intellectual, cultural, and economic engagement while becoming thoughtful, committed and socially responsible graduates.
