Who Am I?

I grew up playing hockey, and to do so, I lived away from home during H.S for 4 years to play, and then competed on the college level for 3 semesters. After I left WNE last January, I came to STCC for it's Dental Assisting program. My dream is to eventually attend dental school, and then work alongside my mom and two brothers.

WHY S.A.P?

I decided to become a student ambassador to fill in the free time hockey once did for me. I also love to take on new opportunities & helping people anyway I can. I grew up attending many different schools. so I also know how hard transitioning can be, and want to be that person for someone else here at STCC.
